It was great connecting with everyone at the Choice Hotels International's 70th Annual Convention. It was exciting to talk to hotel operators about the different ways our technology solutions can support their goals, including:

- Provide **reliable TV service and casting capabilities** so guests can enjoy the same entertainment options they have at home.
- Ensure consistent performance and security for guests and staff with **Fiber Internet connectivity**.
- Simplify network management and keep data secure with **Managed Network Services for hospitality**.
- Personalize guest experiences with a **cloud-based unified communications solution**.

Let's keep the conversation going. Talk to us about your technology goals to improve your property's operations and guest experience.
